# BIODEGRADABLE PAPER CUPS

## Practical, sustainable and versatile paper cups

Paper cups are a functional and versatile solution for all types of businesses and events, from hospitality and takeaway services to celebrations and professional gatherings. Made from durable and increasingly sustainable materials, they are designed to serve both hot and cold drinks in a convenient, safe and efficient way.

Their practical design, combined with a wide range of sizes, finishes and models, makes them adaptable to any need. Beyond their functionality, paper cups convey a clean, professional image aligned with the growing expectations of environmentally conscious consumers.

At Monouso, we understand that choosing the right cups impacts both day-to-day operations and your brand perception. That's why we offer a wide range of options that combine quality, design and sustainability.

“GO GREEN” CUPS

## “Go Green” White Paper Cups: functionality with a sustainable design

Disposable cups remain an essential in cafés, offices, catering services and takeaway businesses. Whether for coffee, tea, soft drinks or juices, the “Go Green” White paper cup is a functional and attractive solution that adapts to all types of businesses and occasions.

Available in various sizes, this cup stands out for its clean white finish and its subtle decorative detail in soft green featuring the phrase “go greenuso”. A modern design that adds character without overwhelming the presentation.

## Strength and versatility in every service

Made from paperboard with an inner PE lining, these cups are suitable for both hot and cold drinks. The inner coating provides heat resistance, prevents leaks and helps maintain the temperature for longer.

**Advantages of “Go Green” paper cups**

Strong and functional: the paperboard with PE lining protects against heat and moisture, preventing leaks and ensuring a flawless service.

Versatile: ideal for coffee, tea, infusions, juices and all types of hot or cold drinks. Stackable design: they take up little space, making storage easier and improving organisation in your business.

Rolled rim: enhances drinking comfort and allows the cup to be paired with compatible lids.

Professional presentation: the white design with green detail provides a clean, modern look aligned with businesses that care about every detail.

**A practical choice for your business**

At Monouso, we know how important it is to have practical and attractive solutions for everyday use. With “Go Green” White paper cups, you will offer convenience, durability and a refined image with every service. If you have any questions, our customer service team will be happy to help you choose the best option for your business.

WHITE CUPS

## White paper cups: the most versatile and practical solution

White paper cups are a true classic. But do they guarantee the success of your service? Ours, designed to meet all your needs, certainly do. At an outdoor party, a formal event or a birthday celebration, white disposable cups will always be your best ally.

Their white colour adapts to any setting, adding elegance and professionalism. Their simple and lightweight design makes handling and transporting drinks easy, without compromising on strength.

PEFC certified

The PEFC certification guarantees sustainability and ensures that the raw material used to manufacture this product comes from sustainably managed forests, thereby contributing to environmental sustainability.

WHITE CUPS

### Sustainable paper cups

The paperboard used in our disposable cups comes from responsibly managed forests. In this way, we reduce plastic use, prevent deforestation and contribute to environmental protection. Each paper cup supports a greener future. They are, without doubt, a sustainable alternative to traditional plastic cups.

### Disposable and recyclable cups

After the event, it's time to collect and clean all the tableware. But with our disposable paper cups, you can forget about washing up and optimise your time. Because in hospitality, every second counts. Simply dispose of them in the paper recycling bin for proper recycling, streamline your service and focus on what truly matters: your customers' experience.

### Kraft paper cups, ideal for your takeaway coffee

Paperboard is an excellent alternative when choosing disposable cups. These kraft paper cups stand out for their natural and organic look, making them a versatile and cost-effective option for your hospitality business or café.

Their kraft finish, both inside and out, conveys authenticity and simplicity, offering a carefully refined aesthetic for all types of drinks. Perfect for takeaway establishments, these recyclable cups are easy to store, stack effortlessly and take up minimal space.

# BAMBOO CUPS

## Natural, sustainable... and with a design that stands out!

The natural bamboo paper cup is the perfect choice for serving coffee, infusions or hot and cold drinks with an eco-friendly, durable and safe style.

Made from bamboo paperboard, a sustainable, renewable and biodegradable material. Rigid design with high thermal resistance, ideal for hot drinks without deformation. Recyclable, combining environmental responsibility with functionality.

1000 Units/Box  
Code 13907-50

## Sustainable and environmentally friendly design

Made from paperboard sourced from responsibly managed forests, their biodegradable composition helps reduce environmental impact without compromising on quality or design. In addition, being recyclable and disposable, they make waste collection and management easier in cafés, events or food trucks, optimising service and cleaning times.

## Comfort and safety in every use

Thanks to their inner PE lining, they prevent leaks and drips, keeping your drinks at the ideal temperature for longer. Perfect for coffee, infusions or hot chocolate, both for professional and personal use.

Their sturdy structure and rolled rim provide greater drinking comfort and a more secure grip, preventing deformation even with hot liquids.

## The perfect balance between image and functionality

Design not only enhances your service, but also reinforces your business's visual identity.

The Deli Range plastic container with lid is a practical, hygienic and effective way to present and store all your food. Its simple, round design adapts to all situations and types of food, making it the most versatile container in your kitchen.

- Recyclable.
- Rigid, stable and leak-resistant. Ideal for takeaway, street food and delivery.
- Microwave safe.

### PP plastic containers: strength and functionality for takeaway and delivery

If you run a takeaway food business or a service where takeaway or delivery is essential, PP plastic containers will be your best allies to ensure your dishes reach your customers in perfect condition, as if they had just come out of the kitchen.

#### Maximum resistance for hot food

Made from PP plastic, these containers are ideal for holding hot food without losing their shape or becoming deformed. Their excellent thermal resistance makes them a safe and efficient option for businesses that need reliable packaging on a daily basis.

They are also microwave safe, adding extra value for both professionals and customers by allowing food to be reheated quickly and conveniently.

# BIODEGRADABLE CARDBOARD CONTAINERS

## Sustainable, versatile and ready to go

Cardboard food containers are designed to provide a fast, clean and well-presented service. They are made from recyclable materials and, in many cases, include coatings that help retain temperature and prevent leaks. These containers are ideal for restaurants, bars, cafés, catering services, food trucks or any business offering takeaway meals, whether hot or cold.

## Features of cardboard containers

- Made from high-quality paperboard.
- Easy to stack and transport.
- Available in kraft or white, with or without inner coating.

Cardboard containers are an environmentally friendly option, making disposal and recycling easier. They offer a complete, functional and eco-friendly solution for hospitality businesses that want to deliver a practical experience without compromising on sustainability.

## Preserving the texture of fried chicken: cardboard buckets

Cardboard buckets for fried chicken withstand high temperatures and, most importantly, are disposable containers that prevent oil from seeping through the walls. This ensures customers don't get a single drop on them.

# PIZZA SLICE BOX

## Corrugated Pizza Slice Box Kraft Code 4411-100

100 Units  
500 Units/Box

### Essential packaging for pizzerias

The cardboard slice holder is the perfect container for any pizzeria, food truck or venue serving pizza slices, allowing your customers to enjoy them in a more convenient and hygienic way, whether on-site or on the go. Kraft pizza slice holders give your business a more sustainable image, while their white interior helps highlight all the food inside. Another key advantage of this packaging is that it is very easy to store and takes up very little space anywhere in your premises.

# CARDBOARD TRAYS FOR FRIED FOODS

## The No.1 choice for serving in your venue: kraft trays

One of the most popular options for fast food establishments, whether for eating on-site or enjoying food on the go. Without a doubt, kraft trays are the most practical packaging solution you can find in our wide catalogue for serving your dishes.

Their design, with raised side edges and a durable structure, allows food to be held securely and carried to the table without the risk of spills, soggy food or unexpected drips. They are also stackable, helping you optimise storage space.

## Perfect crispness with cardboard containers for fried foods

The fast food sector continues to grow, and with it, the demand for cardboard packaging to transport these delicious foods. There are as many types of containers as there are takeaway options (whether fried or otherwise). With them, you can keep any food and sauce in perfect condition. Whichever you choose, all containers feature a grease-resistant treatment to prevent oil or grease from staining your hands.

- Grease-resistant coating to prevent oil from seeping through
- Stackable to reduce storage space

These containers have been carefully designed to meet the challenge of holding fried foods without compromising their quality. Their oil resistance ensures that no excess grease leaks through the packaging, preventing food from becoming soggy and preserving that crispy texture that makes every bite a memorable experience.

# CHURROS PACKAGING

## Paper Food Box for Churros with Cup Holder Kraft

Code 13119-25

78x78x179 mm

25 Units

500 Units/Box

### The perfect box for hot chocolate with churros

One hand for the cup of hot chocolate, the other holding the portion of churros—and no free hand to enjoy this delicious treat. But don't worry, we have the solution. From now on, your customers will be able to enjoy their chocolate with churros comfortably while strolling through the city. These boxes are made from folding carton with a 250 g/m<sup>2</sup> weight.

This cardboard box has everything you need: one opening to hold the cup of chocolate or coffee and another for the churros, all in a single package. But that's not all—it also features a small slot at the back to hold a napkin.

# SANDWICH CONTAINERS

## Takeaway sandwich containers

Sandwich containers are used to protect, transport and present all types of sandwiches, thanks to their different features such as shape and material. They are perfect for packaging and takeaway use. Want to prepare your sandwich to go? We have the solution.

The kraft paperboard used in our cardboard boxes for baguettes and sandwich boxes offers excellent strength and flexibility.

Their natural finish enhances your products and gives them an attractive, handcrafted look for customers. In addition, they are biodegradable, lightweight and easy to handle, allowing your customers to carry them comfortably. Small details are the foundation of success—choosing the right sandwich packaging design is just as important as your ingredients.

# GREASEPROOF WRAPS AND CONES

## Perfect presentation for fried foods

Kraft cardboard cones are a functional and attractive option for presenting fried foods in hospitality and takeaway services. Made from durable paper, they allow portions to be served conveniently and safely, making them easy to enjoy on the go.

Greaseproof paper wraps are specially designed for wrapping foods with a high oil content, such as fried items, burgers or sandwiches. Thanks to their special treatment, they act as a barrier against grease, preventing leaks and keeping things clean during consumption. They also help preserve the product's presentation, offering a more hygienic and professional experience.

Both products are essential in catering businesses, food trucks and takeaway services looking to combine practicality, presentation and sustainability. Their versatility and ease of use make them efficient solutions for daily service, while reinforcing a modern and responsible brand image.

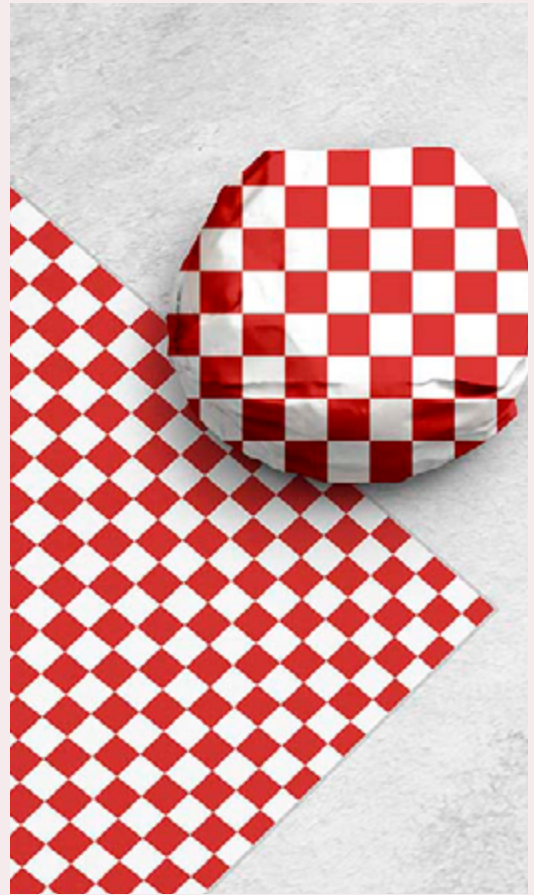

## Greaseproof paper wraps

Greaseproof paper wraps are designed to protect, serve and transport oily or sauce-based foods. Made from oil-resistant paper, they are lightweight and prevent any stains on your customers' hands.

## Paper cones for fried foods

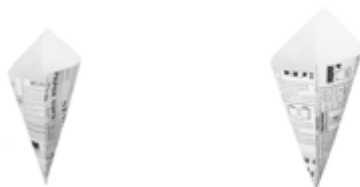

Do you pay attention to every last detail in your establishment to win over your customers? Then these paper cones for fried foods are made for you. Not only do they help you serve your fried dishes with a unique and professional style, but they also provide a functional solution that enhances the eating experience.

Designed with both aesthetics and practicality in mind, paper cones allow your customers to enjoy fried foods anywhere: in the park, at a fair, on the go or in your venue. A unique experience that your customers will not only enjoy, but remember.

# COMPOSTABLE CARDBOARD PLATES AND TRAYS

## Practical and durable solutions

Cardboard plates and trays are a versatile and functional alternative for food service in hospitality, events and takeaway. Made from durable materials, they allow you to present everything from appetisers to main dishes safely, maintaining stability even with hot or sauce-based foods. Their lightweight design makes handling and transport easier, optimising service in all types of settings.

Cardboard trays stand out for their capacity and sturdiness, making them ideal for serving larger portions, combinations or full meals. Cardboard plates, on the other hand, offer a practical solution for individual servings, adapting to different sizes and needs. Both formats are designed to streamline service without compromising on presentation.

In addition, these products contribute to a more sustainable image thanks to the use of paper-based materials. They are an essential choice for businesses seeking efficiency, convenience and environmental responsibility, without compromising on customer experience.

# SUSTAINABLE CUTLERY

## **Practical and responsible options for any occasion**

Sustainable cutlery offers a practical and elegant alternative for events, catering services and hospitality businesses looking for more responsible options. Among the most commonly used materials are stainless steel and wood, both valued for their functionality and style.

Stainless steel cutlery provides excellent durability and a sophisticated appearance, making it ideal for meals, celebrations and professional catering services. Its modern finish enhances presentation and allows repeated use thanks to the quality of the material.

Wooden cutlery, on the other hand, stands out for its natural design and lightweight feel. Comfortable to use, it brings an eco-friendly and contemporary aesthetic that is highly appreciated at outdoor events and informal gatherings.

Choosing sustainable cutlery allows you to combine convenience, a refined image and a commitment to more conscious consumption, offering practical and attractive solutions for all types of occasions.

**The eco-friendly alternative for your business**

This cutlery complies with European regulations on sustainability, recycling and food contact. In addition to caring for the environment, wooden cutlery enhances your business image for increasingly conscious and environmentally committed consumers.

SUSTAINABLE CUTLERY

# REUSABLE STAINLESS STEEL CUTLERY

## A unique dining experience

Cutlery always plays a fundamental role at the table, acting as the link between culinary creations and our senses.

Made from high-quality stainless steel, this cutlery remains in perfect condition until the very last use, with no risk of corrosion, wear or rust.

This durability is not affected by dishwasher use, saving you from tedious cleaning tasks. Without a doubt, a feature that satisfies even the most demanding customers.

### A perfect design: SOS bags with closure

Our paper bags with closure stand out not only for their practicality, but also for their functional format and attractive shape. With a flat, rectangular base, these bags remain upright once filled, making them ideal for display.

## Doypack stand-up paper bags

Discover the innovation and versatility of our Doypack bags, designed to optimise your packaging needs. With their distinctive and unique design, these bags stand upright with ease, offering an attractive shelf presentation and a spill-free pouring experience.

Equipped with resealable closures for easy opening and closing, these paper bags help maintain product freshness thanks to their multi-layer, high-barrier materials, resistant to grease, moisture and air. The closures can be opened and closed as many times as needed, with options such as zip-lock or self-adhesive seals.

The properties of biodegradable bags are the same as those of traditional plastic bags; they offer the same flexibility, strength and waterproof qualities. But what is the main advantage of using biodegradable carrier bags in your business? Both you and your customers will be contributing to sustainability and environmental protection. They are certified under EN 13432 and carry the OK Home Compost label, confirming that they are suitable for home composting.

# BIODEGRADABLE DOG POOP BAGS

### A unique experience with cotton bags

The long handles of our tote bags are designed with comfort in mind. They can be worn over the shoulder, even when fully loaded, leaving your hands free at all times. A hassle-free experience. In addition, their lightweight design makes them even easier to carry.

### Durable and reusable

Made from cotton, these bags are built to withstand intensive use without wearing out. With a weight of 145 g/m<sup>2</sup>, they are ideal for carrying all types of products.

# NON WOVEN BAGS

## The essential accessory for all types of businesses

TNT, also known as non-woven fabric, is a type of textile material made from non-woven PP fibres bonded together through various mechanical processes. TNT bags are environmentally friendly, as they are not single-use. They can be reused countless times and, once they reach the end of their life, they can be recycled in the appropriate bin. Their manufacturing process, carried out entirely through mechanical methods with heat-sealed seams, allows these bags to be highly cost-effective, which is why their use is increasingly widespread across all sectors.
