REUSABLE AND BIODEGRADABLE PLATES

### UNA ELECCIÓN INTELIGENTE PARA TODA OCASIÓN: PLATOS DE PS

Are you looking for tableware to suit all your events? **PS plastic plates** are the solution. Their amazing versatility makes them the best choice for all kinds of situations and you can forget about constantly renewing your tableware, as they are reusable! Being made of plastic does not necessarily mean that they are single-use products.

Made of polystyrene, also known as PS, our plates are highly durable and resistant, so you will have no problem using them on any occasion. The fact that they are strong does not prevent them from being lightweight; these plates are exceptionally light, which makes them easy to handle and transport. What's more, this insulating material **helps to preserve the temperature of the food for longer**, ensuring an optimal culinary experience.

But wait, do you want to know even more advantages of PS hard plates?

- ✓ Strong and durable
- ✓ Reusable
- ✓ Versatile

## Reusable Plate Economic PP "X-Table"

	REFERENCE	DIMENSIONS	COLOUR	PCS/PKT	PCS/BOX	MATERIAL	INFO

## BIODEGRADABLE AND COMPOSTABLE PLATES

Our Biodegradable Plates offer high quality and are perfect for catering, parties and formal or informal events. Currently, we have a variety of ecological materials that make different Ecological Plates: Chinet Pulp Plates, Bio Sugar Cane Plates, Paper Plates, Palm Leaf Plates, Wooden Plates, Cardboard Plates and "Party" Cardboard Plates.

To be able to dress your table without damaging the environment at MonoUse we present our great selection of Biodegradable Tableware. A collection of Ecological Plates which is perfect for enjoying food in the most sustainable way.

**Chinet Pulp Plates:** it is the alternative to traditional Cardboard Plates.

**Bio Sugar Cane Plates:** Also known as Sugar Fiber Plates or Bagasse Plates have a smooth and elegant finish.

**Wheat Pulp Plates:** Manufactured from wheat remains and under totally

natural processes, Disposable Wheat Plates withstand temperatures ranging from  $-25^{\circ}\text{C}$  to  $170^{\circ}\text{C}$ , being freezer, microwave and oven suitable.

**Paper Plates:** Very similar to Cardboard Plates, these Paper Plates are disposable, lightweight and can be used in the microwave and freezer.

**Palm Leaf Plates:** Possibly the most elegant Ecological Plates of the range.

**Wooden Plates:** Give an Elegant Disposable Plate to your table with these oven, microwave and freezer suitable Biodegradable Plates.

**Cardboard Plates and Cardboard Party Plates:** These Biodegradable Plates are the perfect solution for parties and birthdays - especially for children - because of their great resistance.

You can complete the range with Disposable Cutlery, Disposable Paper Cups and Paper Napkins.

## INDISPENSABLE ON ANY TABLE: DISPOSABLE CARDBOARD PLATES.

We know that if you use them at your events you will never want to change them again. Cardboard plates have countless advantages that have made them indispensable even at large events and catering services. What are they? We tell you:

- ✓ **The perfect alternative to plastic:** made of folding cardboard, our paper plates are made from cellulose from forests certified for the responsible management of their resources.
- ✓ **Hygienic:** our cardboard plates are, without a doubt, the perfect disposable option. As they are single-use, they allow you to save both time and money, just dispose of them in the appropriate container and that's it.
- ✓ **Resistant,** but light and economical
- ✓ **Optimise your storage space:**

### WITH PET LAMINATION

Forget about plates that bend or get soggy when you serve your food. Cardboard plates with PET lamination are the ideal choice for any of your preparations. Its thin lamination made with PET plastic is the perfect barrier that provides resistance to withstand fatty, oily or saucy foods, while avoiding softening or cracking.

Use them and recycle them, PET laminated plates have the advantage of saving you time and resources in washing them. Simply dispose of them in the cardboard bin.

## Paper Plate Round Shape Kraft

	REF. 12180-100	Ø 23 cm	Kraft	245 g/m <sup>2</sup>	100	600	Cardboard

### PLATES WITH ZERO PLASTIC IN THEIR MANUFACTURE

Without any kind of lamination and without plastic, Plastic Free cardboard plates are the most sustainable option on the market.

Can they stand up to the test without any kind of coating? Of course they can, but they also have the advantage that, as they have no lamination, the cardboard absorbs the humidity of the hot preparations that you place on them so that it does not condense on the surface and the food does not soften, keeping your meals in perfect condition.

Use them with all kinds of hot or cold foods without any fear.

As they do not contain plastic in their composition, these plates are totally biodegradable and compostable, so by disposing of them in the organic bin you will be contributing to sustainability and care for the environment.

### 100% NATURAL, THE SUGAR CANE DISHES

Do you want to surprise your event or catering with a **sustainable tableware**, but with a superior quality? Don't keep looking, you've come to the right place and we are sure you won't find anything better than our sugar cane plates.

Sugar cane is one of the materials with the lowest environmental impact when it comes to manufacturing disposable tableware. How is this possible? We tell you. Sugar cane plates are obtained from bagasse, a product obtained after the processing of sugar cane. After processing this natural material, a bioplastic called vegetable polyethylene is obtained, which does not pollute.

As they are made from a 100% vegetable product, they are **compostable** and degrade naturally. However, this does not mean that you can dispose of them anywhere, for a correct waste treatment you will have to deposit them in the organic container.

If you're a pastry lover, you're sure to know all the ins and outs of pie bases. On our website you will find a wide variety of sizes and colours so that you can choose the one that best suits your culinary creations.

- ✓ **Made of sustainable materials.**
- ✓ **Practical, but also resistant.**
- ✓ **They facilitate the transport of your cakes.**

### **CARDBOARD DISCS WITH PET LAMINATION**

You may wonder why cardboard discs are such a practical option for the preparation of cakes and pastries? These cake bases have a thin PET lamination, which makes them the ideal choice, as they create a perfect barrier that is strong enough to withstand all types of food without the cardboard softening or losing its properties.

And once your customers have consumed your cakes, they will only have to dispose of them in the cardboard container for recycling, forgetting about washing and saving time and resources.
