## PAPER NAPKINS

In the world of hospitality and dining, there is a small yet essential element that can make a difference in a lunch or dinner service: **paper napkins**.

At Monouso we understand how crucial it is to carefully choose the products you use in your business. That's why we present our selection of eco-friendly napkins. These napkins are not only sustainable, but they also have an efficient design that avoids the unnecessary use of more than one, thus helping to reduce waste in your business.

de Papel Eco 40x40cm**  
REF. 8968-60

# ECO-FRIENDLY PAPER NAPKINS

Eco-friendly napkins are an increasingly popular choice nowadays due to growing environmental awareness and the search for more sustainable alternatives.

These napkins are made from sustainable and renewable materials, such as recycled paper, paper certified by forestry organisations or natural plant fibres. These materials reduce dependence on tree felling and promote the responsible use of natural resources.

## ADVANTAGES

- **Environmental sustainability:** made from recycled cellulose and with a characteristic brown colour. By using these materials, responsible use of natural resources is encouraged.
- **Different sizes:** available in a wide variety of sizes, from the smallest and most practical for napkin holders to the largest and most absorbent for all types of lunches and dinners.
- **Versatility:** their great practicality makes them a useful resource in different situations, offering comfort and functionality.

### **WHAT IS AN ECO NAPKIN?**

It may seem redundant, but there is more to an eco paper napkin than meets the eye.

This product is not only made from recycled paper, it also complies with a series of requirements regulated by the European Union regarding the consumption of natural resources. Therefore, ECO napkins are sustainable from the moment they are manufactured until they are used by your customers.
